May 13, 2026

19 open pull requests across 13 repositories

7 upstream contributions | 12 personal repositories

Executive Summary

This report covers all **19** open pull requests authored by **euxaristia** across **13** repositories. The PRs touch **8,366** lines added and **525** lines deleted across **86** files. Of these, **7** are contributions to upstream (third-party) repositories and **12** are within personal repositories.

feat(cli): show acknowledgment when user steering hint is processed

[google-gemini/gemini-cli](#) | Created: May 05, 2026 | Updated: May 13, 2026 | Labels: priority/p2, area/agent, status/pr-nudge-sent +190 / -6 across 4 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

When a user submits a steering hint mid-turn, the CLI silently splices the hint into the conversation with no visible feedback. This PR adds an acknowledgment message when the hint is processed.

Link: <https://github.com/google-gemini/gemini-cli/pull/26498>

fix(tui): bind home/end to line start/end in input

[anomalyco/opencode](#) | Created: May 01, 2026 | Updated: May 11, 2026 +192 / -192 across 20 file(s)

Review: No reviews | CI: Pending

Closes #14899. Home/End keys are not bound in the input field. This PR adds the bindings to the keybinds source-of-truth file.

Link: <https://github.com/anomalyco/opencode/pull/25355>

fix(build): detect Bun runtime in build scripts to avoid hardcoded npm

google-gemini/gemini-cli | Created: April 30, 2026 | Updated: May 08, 2026 | Labels: priority/p2, area/platform, status/pr-nudge-sent

+44 / -8 across 3 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Build scripts invoke npm unconditionally, breaking on Bun-only systems. This PR detects the Bun runtime and uses it instead of npm.

Link: <https://github.com/google-gemini/gemini-cli/pull/26280>

feat(bindings-cpp-ffi): add Rust FFI crate for WASM modules

clockworklabs/SpacetimeDB | Created: April 10, 2026 | Updated: April 28, 2026

+2417 / -0 across 6 file(s)

Review: Commented by chatgpt-codex-connector[bot] | CI: Passed

Add a new Rust crate providing type registration and FFI dispatch for SpacetimeDB WASM modules, re-implementing the C++ bindings logic in Rust.

Link: <https://github.com/clockworklabs/SpacetimeDB/pull/4773>

fix: ensure closing fence in WrapCodeBlock is on its own line

charmbracelet/glow | Created: April 26, 2026 | Updated: April 26, 2026

+3 / -0 across 1 file(s)

Review: No reviews | CI: Pending

WrapCodeBlock glued the closing fence directly onto the last line. When input didn't end with a newline, Markdown renderers never saw the closing fence on its own line.

Link: <https://github.com/charmbracelet/glow/pull/937>

feat: add bun runtime support

QwenLM/qwen-code | Created: April 02, 2026 | Updated: April 24, 2026

+3683 / -126 across 9 file(s)

Review: Changes Requested by wenshao | CI: Pending

Add support for running Qwen Code with Bun runtime for significantly improved performance. Bun provides 3-5x faster startup, lower memory usage, and native TypeScript support.

Link: <https://github.com/QwenLM/qwen-code/pull/2838>

fix: swallow resize() errors after PTY exit on Windows and Unix

microsoft/node-pty | Created: March 13, 2026 | Updated: March 13, 2026

+8 / -2 across 2 file(s)

Review: No reviews | CI: Pending

Silently ignore resize() calls after the PTY process has already exited, catching EBADF errors on Unix and preventing crashes on Windows.

Link: <https://github.com/microsoft/node-pty/pull/901>

Personal Repositories (12)

The following PRs are open within personal repositories under the euxaristia organization.

Repo	Title	Created	Updated	CI
adapt	Add shell completion for zsh and bash	May 09, '26	May 12, '26	Pending
gemini-cli	fix(build): detect Bun runtime in build scripts	May 12, '26	May 12, '26	Pending
gemini-cli	fix(core): make shell tool work under Bun	May 12, '26	May 12, '26	Pending
gitee-cli	feat: implicitly use current repo and branch context for pr ...	May 09, '26	May 09, '26	Pending
colt	feat: mouse click moves cursor; drag enters Visual mode	May 07, '26	May 09, '26	Pending
colt	feat(substitute): add regex support to :s/ command	April 14, '26	May 09, '26	Pending
colt	fix(editor): typing/pasting (now actually inserts the chara...	May 09, '26	May 09, '26	Pending

Repo	Title	Created	Updated	CI
colt	fix: prevent status bar from wrapping when narrower than its...	April 28, '26	May 09, '26	Pending
dotfiles	feat: add protected-branch check to git safety rules	April 13, '26	May 08, '26	Pending
VoxelPopuli	Parallelize chunk generation across rayon worker pool	April 28, '26	April 28, '26	Pending
VoxelPopuli	chore(deps): replace image and rayon with smaller alternativ...	April 22, '26	April 22, '26	Pending
tree-sitter	feat(runtime): pure-Rust runtime crate; port point.c	April 14, '26	April 14, '26	Pending

Add shell completion for zsh and bash

[euxaristia/adapt](#) | Created: May 09, 2026 | Updated: May 12, 2026

+239 / -0 across 3 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Add zsh and bash completions for adapt install and adapt remove commands, using the same data sources as apt's own completions.

Link: <https://github.com/euxaristia/adapt/pull/1>

fix(build): detect Bun runtime in build scripts

[euxaristia/gemini-cli](#) | Created: May 12, 2026 | Updated: May 12, 2026

+44 / -8 across 3 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Build scripts invoke npm and node unconditionally, breaking on Bun-only systems. Detects Bun runtime and uses it instead.

Link: <https://github.com/euxaristia/gemini-cli/pull/4>

fix(core): make shell tool work under Bun

[euxaristia/gemini-cli](#) | Created: May 12, 2026 | Updated: May 12, 2026

+39 / -5 across 3 file(s)

Review: No reviews | CI: Pending

Two runtime issues prevented Bun-launched builds from running shell tool calls: ioctl EBADF crash and empty command results.

Link: <https://github.com/euxaristia/gemini-cli/pull/3>

feat: implicitly use current repo and branch context for pr commands

[euxaristia/gitee-cli](#) | Created: May 09, 2026 | Updated: May 09, 2026

+116 / -13 across 3 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Updates gt pr commands to implicitly infer repository context from local git remote, bringing parity with gh behavior.

Link: <https://github.com/euxaristia/gitee-cli/pull/2>

feat: mouse click moves cursor; drag enters Visual mode

[euxaristia/colt](#) | Created: May 07, 2026 | Updated: May 09, 2026

+138 / -4 across 2 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Switches SGR mouse mode from press-only to press/release/motion. Left-click moves cursor, drag enters Visual mode.

Link: <https://github.com/euxaristia/colt/pull/4>

feat(substitute): add regex support to :s/ command

[euxaristia/colt](#) | Created: April 14, 2026 | Updated: May 09, 2026

+407 / -11 across 5 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Adds a pure-Pony backtracking regex engine (~230 LOC) and wires it into :s/, :%s/, and :.,\$s/ commands. Previously literal-only.

Link: <https://github.com/euxaristia/colt/pull/1>

fix(editor): typing/pasting (now actually inserts the character

[euxaristia/colt](#) | Created: May 09, 2026 | Updated: May 09, 2026

+408 / -18 across 7 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Two compounding bugs made it impossible to enter an opening paren: auto-insert-pair discarded its work, and insert-mode precedence was wrong.

Link: <https://github.com/euxaristia/colt/pull/5>

fix: prevent status bar from wrapping when narrower than its content

euxaristia/colt | Created: April 28, 2026 | Updated: May 09, 2026

+27 / -7 across 1 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

When status bar content was wider than terminal width, it wrapped onto a second row, scrolling the screen up by one line.

Link: <https://github.com/euxaristia/colt/pull/3>

feat: add protected-branch check to git safety rules

euxaristia/dotfiles | Created: April 13, 2026 | Updated: May 08, 2026

+17 / -0 across 2 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Add a git pre-push rule to check for protected branches and open a PR instead of pushing directly.

Link: <https://github.com/euxaristia/dotfiles/pull/1>

Parallelize chunk generation across rayon worker pool

euxaristia/VoxelPopuli | Created: April 28, 2026 | Updated: April 28, 2026

+127 / -117 across 2 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Moves `Chunk::generate()` from the render thread onto the existing rayon worker pool, utilizing multiple CPU cores for world generation.

Link: <https://github.com/euxaristia/VoxelPopuli/pull/4>

chore(deps): replace image and rayon with smaller alternatives

euxaristia/VoxelPopuli | Created: April 22, 2026 | Updated: April 22, 2026

+26 / -8 across 4 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Remove image and rayon crates, replacing with direct png decoding and `std::thread::spawn` to reduce dependency tree.

Link: <https://github.com/euxaristia/VoxelPopuli/pull/2>

feat(runtime): pure-Rust runtime crate; port point.c

euxaristia/tree-sitter | Created: April 14, 2026 | Updated: April 14, 2026

+241 / -0 across 6 file(s)

Review: Commented by gemini-code-assist[bot] | CI: Pending

Introduces a pure-Rust staticlib crate to progressively replace the C runtime while preserving the tree-sitter C ABI.

Link: <https://github.com/euxaristia/tree-sitter/pull/1>
