In Review Cycle

PRs with changes requested where the author pushed follow-up commits. Awaiting re-review from maintainers.

QwenLM/qwen-code#2838 -- feat: add bun runtime support

Created: Apr 02, 2026 | Updated: May 14, 2026 (0d ago)

Size: +3434/-6 in 6 files | Commits: 2 | Mergeable: True

CI: pending | Reviews: CHANGES_REQUESTED | Review comments: 17

Conversation:

[Apr 03, 2026] **DennisYu07**: Hi @euxaristia, thank you for your contribution! bun support is on our roadmap as a next-step feature. We'll conduct a thorough design review before merging this PR, so we'll need some additional time

[Apr 24, 2026] **euxaristia**: Ok I will fix these issues soon, my CachyOS bricked itself so I need some time to reinstall. I should be able to address the requested changes in a week or less.

[Apr 24, 2026] **euxaristia**: Thanks for the thorough review, @wenshao. My machine is finally back, so I just pushed a rebased version that addresses most of the comments. Summary: | Comment | Fix | |---|---| | Root `version` / `

[May 14, 2026] **euxaristia**: Thanks for the thorough reviews, @wenshao. I've pushed a new commit that addresses all outstanding comments: ****Round 2 fixes:**** | Comment | Fix | |---|---| | `bun.lock` stale versions (`@lydell/node

Methodology

Generated via GitHub REST API. For each PR: metadata, CI status (commit status endpoint), reviews, issue comments, inline review comments, and commit history were collected. States were determined by cross-referencing signals -- e.g., "changes requested" + subsequent author push = "in review cycle". Cairn org queried but returned zero open PRs. Data fetched May 14, 2026.
